## Internship Certificate

To Whom It May Concern,

This letter serves to confirm that NOURELDIEN KHALED MOHAMED SAIED has successfully completed an intensive training program at ZILONIS company from January 5th to 27th, 2025.

During this time, Mr. SAIED gained proficiency in welding, cutting, and drilling operations, along with demonstrating competency in Inventor, and a theoretical understanding of heat exchangers.

Sincerely,

ZILONIS GmbH

## HSK Level 4 - Detailed Skill Breakdown & Proficiency Description

### Certificate of Appreciation

This is to certify that **Mr. Noueldien Khaled Mohamed**, from Cairo, Egypt, has successfully completed his practical internship at **TopKids Afterschool**, operated by **Top Handel SRL**, Sibiu, Romania, under the administration of **Mrs. Beatrice Topăluță**.

The internship took place during **September and October 2025**.

During this period, Nour was actively involved in various educational and creative activities with the children. He organized painting and drawing sessions, played with the kids outdoors, and offered valuable assistance to our teaching staff. He communicated in both **German and English**, showing excellent interpersonal skills, patience, and genuine care for the children.

We were delighted to have him as part of our team. Both the teachers and the children enjoyed his presence and appreciated his respectful attitude and responsible manner. It is clear that he is a well-mannered and well-educated young man who approaches every task with seriousness and enthusiasm.

We are sincerely grateful for his contribution to our afterschool and regret that his time with us passed so quickly. We wish him every success in his future career and are confident that he will continue to make a positive impact wherever he goes.

The poster is titled "Hydropower" and is presented by "Maadi STEM School For Girls (M-S-S-G)" in Grade 10, Semester 2, 2018-2019. It includes a logo for the school and the Egyptian Ministry of Education. The content is organized into several sections:

- Abstract:** A brief summary of the project's objectives and methodology.
- Introduction:** An overview of the project's purpose and the significance of hydropower.
- Materials & Methods:** Details on the equipment used, including a graph showing energy output vs. water flow rate.
- Results:** Data tables and graphs showing efficiency and energy output.
- Analysis:** A section where the team discusses their findings and the impact of their research.
- Conclusions & Recommendations:** The team's conclusions and suggestions for future work.
- Literature cited:** References to previous studies on hydroelectric power.
- Acknowledgments:** A special thank you to the supervisor, Eng. Nour Khaled.
- For further information:** Contact details for the team members.

Some of the students at El Maadi STEM High School wrote a special thank to me on their project poster as i was one of the supervisors of thier project
